

Stream. Game. Learn. Teach. Work. Faster.

Fast, reliable internet.

1 Gig gives you download speeds up to 6x faster and upload speeds up to 77x faster than the average speeds you get from cable internet.¹ 2 Gig takes those download speeds up a whole gigabit. And our 2 Gig plan includes the very latest wireless standard available, Wi-Fi 6.

None of the nonsense.

No data caps, no annual contracts, and no hidden fees. Just really good, really fast internet. It's that simple.

Internet you can trust.

With a fiber optic network that was built for the internet, you'll have (way) fewer outages than you'd get with cable. And you won't have to compete with your neighbors for a connection.

#1 Overall Satisfaction

Readers' Choice Awards 2020:
Internet Service Providers (ISPs)

Google Fiber 1 Gig: \$70/month*
Google Fiber 2 Gig: \$100/month*

Google Fiber

© 2021 Google Fiber Inc.

*Terms and Conditions: Plus taxes and fees. ¹Speed claim based on FCC's January 4, 2021 Measuring Broadband America report, using the US weighted median cable speed experience of 168 Mbps download and 12 Mbps upload. Service not available in all areas. If you live in an apartment or condo, Google Fiber's ability to construct and provide Fiber is subject to the continued agreement between Google Fiber and the property owner. Upload/download speed and device streaming claims are based on maximum wired speeds. Actual Internet speeds are not guaranteed and may vary based on factors such as hardware and software limitations, latency, packet loss, etc. Go to google.com/fiber for more information.
